Free Admission to the Theaters.

NEW YORK, June 15 .- The dramatic profession here is manifest ing much interest in the determination of the principal places of publie amusement in Chicago on and after August 1st to abandon all manner of window advertising, so that lithograph programmes, etc., in windows will no longer entitle any one to free admission The feeling on the part of the managers is that the whole thing is an abuse. Now that Chicago has declared against it, it is probable that New York will follow. Prominent managers here estimate the number of dead-heads in New York and Brooklyn at 10,000 per week.

STEWART'S CAMPAIGN.

His speech Before the Reno Republican Club.

The Reno Gazette gives the fol lowing synopsis of Stewart's speech before the Reno Republican Club last Saturday evening which we print in full as it contains matters of interest to everybody in the

The address of ex-Senator Stewart before the Reno Republican Club last Saturday evening was which was to clean out the field, vigorous and to the point. He began by saying that he was anxious to talk to the people of Reno, but had been misrepresented so much that he did not know as any one wanted to hear him. He felt that Reno had a good future, that it was to be the best place between Salt Lake and San Francisco. He said he had been identified with this State from the beginning, and had lived in it more years than most men who were in it now. He was the first man elected Senator, he was in the first Legislature and had helped to establish the State He sketched rapidly the great influence for good the Republican party had exercised in the affairs of mankinds and showed that to the preservation -Four Nerwegian girls reached of the Union France owed her Republic. Look at the fertile yalleys with 150,000 acres of fine land in this county and answer the false advertisement. Much can be done for Nevada. There is room for many thousands. A mistake made by Congress was to cut the West up into too small Territories. The theory of the Government is to make States out of all the Territories, but some of them never can have the population to make a the rest of you. Idaho never can be a State. Nevada up to the same proportions | erty of Judge Edwards.

In these days of railroads travel is not a burden, and we can support a State then, and in 1890 no one can sneer at us. Nevada wants silver remonetized, her boundaries extended, her land business attended to, and then see if she cannot get rid of the slur of being a rotten borough. Tell the East it is her rotten dishonesty in demonetizing silver that has impoverished Nevada. Now right it and it will be a great State. It has the best climate and raises the best men in the world. A boy raised here is worth two raised in the Sacramento Valley. And when Nevada gets her growth Reno will be the best place in it. It has abundant water, ample power, fine land and lies at the gateway to the State: It will be a competitive point as soon as any road, north or south, touches another line. The Senator touched at the Chinese question, saying Nevada wanted exclusion not restriction, and the fight must be made. She does not want slaves and will not have them. It will take time and no one should be abused in making the change, but it was bound to be made. He says he drew the Fifteenth Amendment and had charge of it. Sumner and the East wanted to
